Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Doll.

Doll shows a valve body 12; seat 46; upstream supply 44; first chamber 30; second chamber 48 connected at the seat/restriction to the first chamber by a fluid flow path; valve assembly comprising a valve element 54 having an enlarged lower portion seen in Figure 1; spring 84; and cross drilled orifice 44 connected to a longitudinal passageway.

Allowable Subject Matter

3. Claims 6 and 8-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 11- 30 are allowed.

Response to Arguments

5. Applicant's arguments filed January 22, 2004 have been fully considered but they are not persuasive. Applicant contends that the fluid pressure does not bias the valve into the open position as the forces are balanced. The examiner disagrees. Note in column 2, lines 7-12 of Doll discuss the need to reduce drag in the valve. Further,

Art Unit: 3754

column 3, line 24 discloses the valve is a biased open valve. This is evidence that the fluid is biasing the valve in the direction of flow. Further, there is no evidence in Doll that the pressures are balanced and it is clear that, as with the applicant's invention, that the spring and fluid pressure bias the valve open.

Applicant's arguments regarding claims 20-28 on pages 12-13 of the response have been found persuasive, as the new subject material is not shown by Doll.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Kaufman whose telephone number is (703)
